

# MANAGEMENT CONSULTING

# SERVICES

The Millcreek Mining Group is affiliated with Millcreek Engineering, an integrated engineering company serving the energy and resources industries. We provide support at every stage of project development ranging from geologic and mining consulting services, through to detailed engineering, procurement and construction management (EPCM).

Through our selection of core professionals we bring to your project a team of trusted and respected industry experts. An understanding of our client's needs, coupled with effective management and a streamlined corporate structure, allow us to provide an excellent and highly competitive service to the mining and natural resources sectors.

Millcreek Mining Group's professionals have spent their industry and consulting careers finding ways to optimize the value of almost every aspect of a mining project. Our prior experience and exposure to world-class mining companies and operations gives us a unique ability to provide practical, and successful, advisory services to the following fields:

- Performance bench marking and improvement
- Organization and structure
- Technological innovations
- Asset management
- Risk and safety management
- Legal services
- Mergers & acquisitions
- Strategic planning
