

OIL SHALE

SERVICES

The Millcreek Mining Group is affiliated with Millcreek Engineering, an integrated engineering company serving the energy and resources industries. We provide support at every stage of project development ranging from geologic and mining consulting services, through to detailed engineering, procurement and construction management (EPCM).

Through our selection of core professionals we bring to your project a team of trusted and respected industry experts. An understanding of our client's needs, coupled with effective management and a streamlined corporate structure, allow us to provide an excellent and highly competitive service to the mining and natural resources sectors.

Millcreek Mining Group is uniquely qualified to serve the oil shale industry, with decades of direct, practical, operating and consulting experience in development of some the world's major oil shale projects including the Nefit Utah project, Red Leaf, Irati Energia and others.

Our mining personnel have had extensive experience in oil shale, ranging from geologic resource estimation and feasibility studies through to management consulting on major oil shale projects. Our associates are counted among the world's foremost experts on extraction and processing of oil shale, with experience in managing field operations, conducting feasibility studies and advocating the development of the oil shale industry. We believe that our team represents the single most experienced group of oil shale experts in the world.

Services

- Exploration management
- Geologic resource modelling and estimation
- Project management of hydrological and geotechnical studies
- Core logging and geological / geophysical / geostatistical interpretation
- Operational mine planning and design
- Pyroprocessing
- Economic and technical feasibility studies
- Resource / reserve certification (NI51-101, JORC, etc.)
- Minerals processing and materials handling
- Strategic mine planning and optimization
- Reclamation and closure planning
- Due diligence audits and asset evaluation

For additional details on our oil shale experience, please request a copy of the resumes of our key personnel.
