

RARE EARTH ELEMENTS

SERVICES

The Millcreek Mining Group is affiliated with Millcreek Engineering, an integrated engineering company serving the energy and resources industries. We provide support at every stage of project development ranging from geologic and mining consulting services, through to detailed engineering, procurement and construction management (EPCM).

Through our selection of core professionals we bring to your project a team of trusted and respected industry experts. An understanding of our client's needs, coupled with effective management and a streamlined corporate structure, allow us to provide an excellent and highly competitive service to the mining and natural resources sectors.

The Millcreek Mining Group is well qualified to serve the Rare Earth Elements (REE) industry. Our professionals and associates have extensive operating and consulting experience with rare earth elements projects in North America and around the world.
