

MINE ENGINEERING

SERVICES

The Millcreek Mining Group is affiliated with Millcreek Engineering, an integrated engineering company serving the energy and resources industries. We provide support at every stage of project development ranging from geologic and mining consulting services, through to detailed engineering, procurement and construction management (EPCM).

Through our selection of core professionals we bring to your project a team of trusted and respected industry experts. An understanding of our client's needs, coupled with effective management and a streamlined corporate structure, allow us to provide an excellent and highly competitive service to the mining and natural resources sectors.

Our professionals have all had management, operational and consulting experience at operating mines. We have worked on mining projects throughout the world and on various commodities, with an emphasis on coal and other bedded deposits. Our team of core professionals and colleagues, combined with effective management and a streamlined corporate structure, allow us to provide an excellent and highly competitive service to the mining and natural resources sectors.

We provide a broad range of service offerings related to surface and underground mining. These service include the following:

Services

- Mine planning, design and optimization
- Surface mining applications such dragline, truck-shovel, production dozing, continuous surface miners, in-pit crushing conveying (IPCC) etc.
- High-production underground mining applications including longwall, CM super-sections, ventilation, ground control. etc.
- Performance improvement / bench marking
- Cost estimation and scheduling
- Economic analysis and valuations
- Reclamation and closure planning
- Training and staffing, operations support
- 'Owner's Engineer'

Industries

Our personnel have previously worked in the following industries:

- Coal (thermal and metallurgical)
- Base and precious metals
- Oil sands / Oil shale
- Potash, phosphate and trona
- Gypsum
- Cement
- Aggregates
- Frac sands

For additional details on our mine engineering experience, please request a copy of the resumes of our key personnel.
